

# DARSHAN TANDEL

Valsad, Gujarat, India | +91 6356718644 | tandeldarshan57@gmail.com | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Software Engineer with hands-on DevOps experience designing CI/CD pipelines, Docker containerization, automated Git-triggered deployments, and secure network infrastructure (Nginx, SSL/TLS, Cloudflare Tunnel, UFW), alongside full-stack development in React.js, Next.js, PHP, and WordPress. Skilled in GitHub Actions, self-hosted runners, and Linux server administration, with a track record of debugging complex production pipelines. Experienced in building local LLMs and Retrieval-Augmented Generation (RAG) systems with real-time streaming.

## TECHNICAL SKILLS

**DevOps & Infrastructure:** Docker, Docker Compose, GitHub Actions (CI/CD), Nginx, Cloudflare Tunnel, SSL/TLS (Let's Encrypt), UFW, Linux (Ubuntu), Self-Hosted Runners, systemd, Git/GitOps, Cloud Storage (Cloudinary, S3)

**Frontend & Backend:** JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Node.js, ASP.NET Core, PHP, WordPress, REST APIs, MySQL, MongoDB

**AI & LLM Engineering:** Ollama (Local LLM Deployment), Retrieval-Augmented Generation (RAG), Vercel AI SDK, Vector Embeddings

**Tools & Automation:** Git, GitHub, Python (Data Automation, API Data Pipelines)

## PROFESSIONAL EXPERIENCE

**Wappzo Infotech Private Limited — Frontend Developer (Intern → Trainee → Associate Engineer)** Nov 2024 – Dec 2025

- Built 10+ reusable React.js components using Hooks and props-driven design, integrating with REST APIs to render dynamic data; resolved frontend-backend data-format mismatches.
- Translated UI requirements into responsive, cross-browser interfaces across 10+ pages using React.js, Next.js, and modern CSS (Flexbox, Grid, Tailwind, Bootstrap).
- Architected and shipped 13 custom WordPress plugins and custom theme (pushtimarg.wappzo.com), featuring an English/Hindi translation engine, LMS course module, polling system, and multi-provider OAuth login.
- Mentored 15+ onboarding interns through HTML, CSS, and JavaScript code reviews while delivering core daily engineering tasks.

**Prologiciel Consulting — .NET Intern**

Jan 2024 – Apr 2024

- Built a full-stack task management app in ASP.NET Core (Razor Pages) and C#, implementing CRUD operations against SQL Server via parameterized ADO.NET queries to prevent SQL injection.

## KEY PROJECTS

**FOP Admin — Food Ordering Platform Admin Dashboard** (Live: <https://fop-admin.darshantech.online>)

Technologies: Next.js, TypeScript, Docker, GitHub Actions, Nginx, Cloudflare Tunnel, MongoDB, Cloudinary

- Designed an automated GitHub Actions CI/CD pipeline with self-hosted Linux runners; resolved root-cause build issues including npm cache errors, cross-platform lockfile conflicts, and VM clock drift authentication failures.
- Architected zero-exposed-port security using Cloudflare Tunnel, custom subdomain, Let's Encrypt SSL/TLS certificates (DNS-01 challenge), and UFW firewall hardening to restrict public attack surfaces.
- Containerized multi-service stack (Node.js/Express, Next.js, MongoDB) via Docker Compose and migrated reverse proxy to native Nginx for seamless zero-downtime routing.

**My Portfolio — AI-Powered Personal Website** (Live: <https://my-portfolio.darshantech.online>)

Technologies: Next.js, TypeScript, RAG, Ollama, Vercel AI SDK

- Shipped a zero-external-cost production RAG pipeline (markdown chunking, local vector embeddings, cosine similarity) powering an AI assistant with self-hosted Ollama LLMs.
- Engineered streaming chat UI (Next.js, Vercel AI SDK) with closed action-token navigation, rate limiting, and sanitized rendering.
- Automated CI/CD deployment to Vercel using GitHub Actions with lint-gated builds, branch-based production/preview releases, and a custom Cloudflare-managed subdomain with automatic SSL.

**Pushtimarg Web Application** (Live: <https://pushtimarg.wappzo.com/>)

Technologies: WordPress, PHP, MySQL, JavaScript, REST APIs

- Engineered scalable WordPress platform featuring 13+ custom plugins, custom theme, English/Hindi translation system, LMS module, and OAuth integrations.

## EDUCATION & CERTIFICATION

B.E. in Computer Science — Mahatma Gandhi Institute of Tech. Education, Navsari (2021 – 2024)

Diploma in Information Technology — Dr. S. & S. S. Ghandhy College of Engg., Surat (2018 – 2021)

Certification: AI Engineer Core Track: LLM Engineering, RAG, QLoRA & Agents — Udemy
